

*Little
Angel's
Journey*

Dzvinka Hayda

Great Heaven's Tiniest Gift

How a precious little angel comes to Earth as a babe in arms -
and why its radiance will bless us all.

In Waldorf schools throughout the world, a child's birthday is celebrated not with sugary cakes, but with a story so sweet adults are moved and children listen with wonder.

Now, the story heard 'round the world in classrooms can be lovingly retold in the home. Long time Waldorf teacher Dzvinka Hayda has released ***Little Angel's Journey***, a richly illustrated story that sheds light on the evergreen question, "Where did I come from?"

One perfect day in heaven, Little Angel spies Bountiful Earth, where season change and fairies play - and two people wait for their baby to be born.

In the fullness of time, Little Angel begins a mystical journey through a heaven filled with Twinkling Stars, Radiant Sun, and Silvery Moon, who bestow the gifts of wonder, love and kindness.

With gentle assistance from Great Angel, Little Angel descends down Rainbow Bridge to Earth....and into the waiting arms of two loving parents.

Written for children but especially moving for adults, Little Angel's Journey is a timeless story brought to life with wonder, love...and a bit of fairy dust for good measure.
